DETAILED ACTION

1. This application claims benefit of the provisional application: 60/407,073 with a filing date 08/30/2002.
2. Applicant's arguments filed on April 21, 2006, are acknowledged. Claims 1-4, and 6-20 are pending in the application.

Responses to Arguments

3. Applicant's arguments regarding the rejection of claims 1-4, 6-12, and 15-20 under 35 U.S.C.112, first paragraph, have been fully considered and they are persuasive. Therefore, the rejection of claims 1-4, 6-12, and 15-20 under 35 U.S.C. 112, first paragraph, is obviated herein.
4. Applicant's arguments regarding the rejection of claims 1-4, 6-12, and 15-20 under 35 U.S.C. 103(a) over Jafarpour et al. publication, J. of Organometallic Chemistry, 2000, 606:49-54, have been fully considered and they are persuasive. Since the instant reaction conditions, i.e., processes are operated under a ring closure conditions at or below room temperature, have not been disclosed by Jafarpour et al. Therefore, the rejection of claims 1-4, 6-12, and 15-20 under 35 U.S.C. 103(a) over Jafarpour et al., is obviated herein.

EXAMINER'S AMENDMENT

5. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be

filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee. Authorization for this examiner's amendment was given in a telephone interview with Seth M. Nehrbass on May 03, 2006. The application has been amended as follows:

In claim 19, line 3, after "and the", insert
--imidazolium--

In claim 20, line 3, after "and the", insert
--imidazolium--

Delete claims 13-14

Reasons for Allowance

6. The following is an examiner's statement of reasons for allowance:

Claims 1-4, 6-12, and 15-20 are neither anticipated nor rendered obvious over the art of record, and therefore are allowable. This invention relates to synthesis of 1,3 distributed imidazolium salts. The closest reference is Jafarpour et al. publication, J. of Organometallic Chemistry, 2000, 606:49-54. The difference between instant claims and Jafarpour et al. is that the instant processes are not found in Jafarpour et al. A suggestion for modification of the above reference to obtain the instant processes, has not been found. Claims 1-4, 6-12, and 15-20 are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
